

#833A - WEITMAN

1003544378

THE COUNCIL FOR TOBACCO RESEARCH-U.S.A., INC.

July 12, 1974

Grant Application No. 833A

CARDIOVASCULAR

To: The committee comprising Drs. Bing, Gardner and Sommers

Subject: A. Stanley Weltman, Ph.D., Brooklyn College of Pharmacy,
Long Island University, Brooklyn, N.Y.
Continuation application No. 833A
"Effects of Nicotine and Cholesterol in Spontaneously
Hypertensive and Normotensive Rats"

History

CTR began support of this investigator in 1972. Renewal for 1974 was requested but denied. Recently an inquiry from Dr. Weltman concerning renewed support, with some reorientation of the study, was handled as Case No. 271. The Executive Committee expressed reservations but voted to encourage a full proposal.

Request

Application No. 833A requests \$37,117, plus one additional year.

Documents Submitted (attached)

1. Application dated 6/25/74.
2. Abstracts:
 - a. "Nicotine Effects in Spontaneously Hypertensive Rats," Weltman, et al, Federation Proceedings 1973.
 - b. "Chronic Nicotine Effects in Spontaneously Hypertensive Rats," Weltman, et al, Federation Proceedings, 1974.
 - c. "Acute Effects of Nicotine in Spontaneously Hypertensive Rats," Weltman, et al, Academy of Pharmaceutical Sciences, 1974.

Comment

Drs. Sommers and Nordsiek visited Dr. Weltman some time ago. The general impression was of a well run laboratory doing careful and thorough, if somewhat unimaginative, work.

We are seeking an outside reviewer to evaluate this proposal.
